**Name of Utility Company:** Avista

**Comment:** I am opposed to the proposed merger between Avista and the Hydro One. This merger will allow foreign control over electric production facilities in Idaho and the Pacific Northwest. In addition, ownership of Avista by Hydro One will make it more difficult to balance the regional (including Idaho) interests in operation of the Columbia River System in terms of hydro-power production, flood control, fish and wildlife interests and recreation benefits important to the Pacific Northwest. Operation of Lake Pendoreille in terms of flood control and recreation concerns for lake levels will be even more complex given the Canadian interests in operation of the Columbia River system, which are not always in concert with the needs of Idaho and the Pacific Northwest. Additionally, it is not in the best interest of the U.S. and the Pacific Northwest for ratepayer dollars to flow across the border to benefit Canadian rate payers and the Canadian economy.

I urge the Idaho PUC commissioners and commission to oppose this merger.

**Comment:** I'm relatively new to this area.. but at 72 years of age, I've seen my share of this type of buy outs. I'm apposed for several reasons, not the least of which is that in every single case such as this the customers lose. They lose the ability to deal with local problems because management is miles away. The often lose service. Again because local control in no longer there and quite often it results in increased consumer costs. Please keep Avista a locally owned and managed company.
